### Annual savings

- Waste:  
1.013 t
  - Energy:  
169.769 kWh
  - Climate protection:  
102,7 t CO<sub>2</sub>
  - Water:  
-
- 55.715€

### Environmental certificates

- ÖKOPROFIT® Kreis Steinfurt 2009
- ÖKOPROFIT® Kreis Steinfurt 2011
- ÖKOPROFIT® Kreis Steinfurt 2012
- ÖKOPROFIT® Kreis Steinfurt 2014
- ÖKOPROFIT® Kreis Steinfurt 2016
- ÖKOPROFIT® Kreis Steinfurt 2018
- ÖKOPROFIT® Kreis Steinfurt 2020

The SAERTEX® Group, with sales of approx. €350m, is the global market leader in the production of technical textiles and systems made of glass, carbon and aramid fibres. With a total of 1,400 employees at 15 manufacturing facilities on five continents – together with an active sales and distribution network in over 50 countries – the SAERTEX® Group is a global player.

Customers in the wind energy, aviation and sports industries, together with the transport sector, depend on fibre-reinforced composites that gain in lightness, stability and corrosion resistance thanks to reinforcement materials from SAERTEX®.

In the trenchless pipe rehabilitation sector, subsidiary company SAERTEX® multiCom® is a leader in the areas of waste water, potable water and pressure line applications.

our environmental team

## Environmental history

Measure	Year
Improvement and optimization of waste and material separation	2012
Replacement of fluorescent tubes with LED tubes in the production and storage hall	2014
Construction of a modern production hall according to current guidelines/stortech-nical standards	2016
Construction of a storage building for hazardous materials/resin	2017
Modernization of the hall air conditioning	2019
Bicycle or e-bike leasing for employees	2019

## Environmental programm

Measure	Invest	Annual savings or benefits	Status
Introduction of „job bike“	0 €	Reduction of CO <sub>2</sub> emission and increase in employee fitness	finished
New controls for the compressed air	6.500 €	Better use of the existing compressors	finished
Installation of LED lamps in the production, administration and storage hall	14.535 €	Continuous exchange	ongoing
Sensitization of employees regarding the conservation of resources (waste, energy, water, etc.)	0 €	Reduction of waste, energy and water consumption	ongoing
Resale of fiber/fabrics residues instead of disposal of residual waste	0 €	55.715 € savings on disposal costs	ongoing
