

Become a part of the successful SAERTEX Team with more than 1.400 employees in eight countries. We develop and produce textile reinforcing materials for the composites industry. These products range from Non-Crimp Fabrics out of carbon or glass fibers to fibre reinforced engineered core materials. The products are being used for the production of fibre reinforced plastics for lightweight applications, e.g. for the wind energy, aerospace, automotive, shipbuilding and sports sectors. Since 1982 we combine innovative strength and extraordinary company growth with the pleasant culture of a medium-sized family-owned company.

For our Headquarter in Saerbeck we are looking for an

Employee Application Service (m/f)

Our requirements:

- Point of contact for the Sales Department and for customers regarding technical questions
