

PFAS (PER- AND POLYFLUOROALKYL SUBSTANCES)

After consultation with our suppliers and current knowledge, we assume that neither PFAS according to the universal restriction on per- and polyfluoroalkyl substances (PFAS) of the European Union nor according to the recommendation by the European Chemical Agency (ECHA) in 2023 are contained in our products.

FLUORINATED GREENHOUSE GASES (F-GASES)

We hereby confirm that, in line with EU Regulation 2024/573 and to the best of our current knowledge, no fluorinated greenhouse gases (F-gases) are used, emitted, or generated in any of our company's processes. We conduct regular reviews of our operations to ensure compliance with all applicable environmental regulations and to actively support climate protection efforts.

PERSISTENT ORGANIC POLLUTANTS (POP)

We hereby confirm that our products are in full compliance with the provisions of **Directive 2025/843/EU** of the European Parliament and of the Council on the restriction and prohibition of the use of certain **persistent organic pollutants (POPs)**.

Our products have been assessed and found not to contain any substances classified as POPs under the above-mentioned directive in concentrations exceeding the permissible thresholds.

All suppliers and subcontractors have also been instructed and committed to comply with applicable POP-related regulations. We are fully aware of our responsibility to place safe and compliant products on the market and are committed to ongoing evaluation of our materials and production processes in line with current legislation.

Should there be any changes in this regard or should we receive new information, we will inform you immediately.
